47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

We need more competitive resources for internet. I am tired of price hikes every internet services I have ever had was horrible and expensive finally sonic came along affordable and reliable. Why does everything have to me about money and bad services AT&T was horrible and pricy. I have 4 children we need broadband service. I have fiber today and used to have DSL horrible we all hated it. It was slow and could t have more than a couple users at a time otherwise it would be deadly slow or not work at all. Please please allow broadband in our rea.
